

EPS Report

February 2014

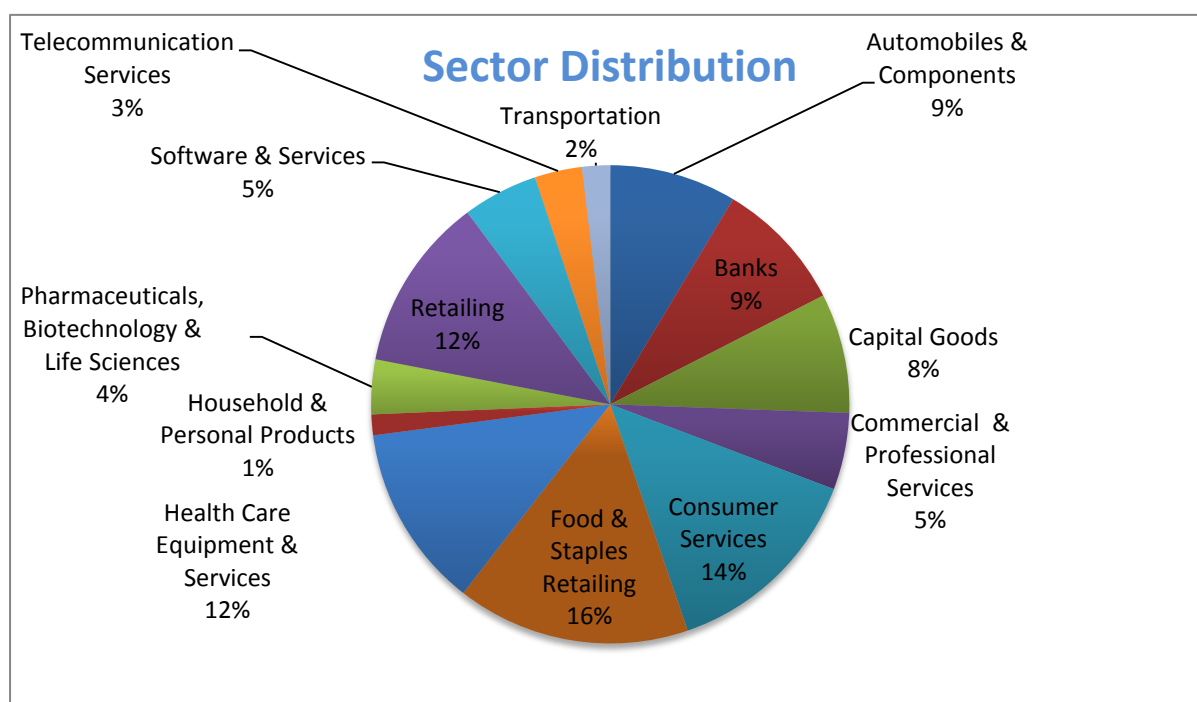

CONSCIOUSCAPITAL

Earnings Growth Drives Share Prices and Dividends: Over time it is the upward trend of earnings per share that drives the share price. Assuming a stable payout ratio, it also drives growth in dividends. But EPS does not have to grow every year. Isolated dips in a single year followed by growth afterwards can provide excellent buying opportunities.

The following table gives the weighting and growth results for earnings per share for the largest ten holdings in the Conscious Investor Fund.
