

# EPS Report

August 2017

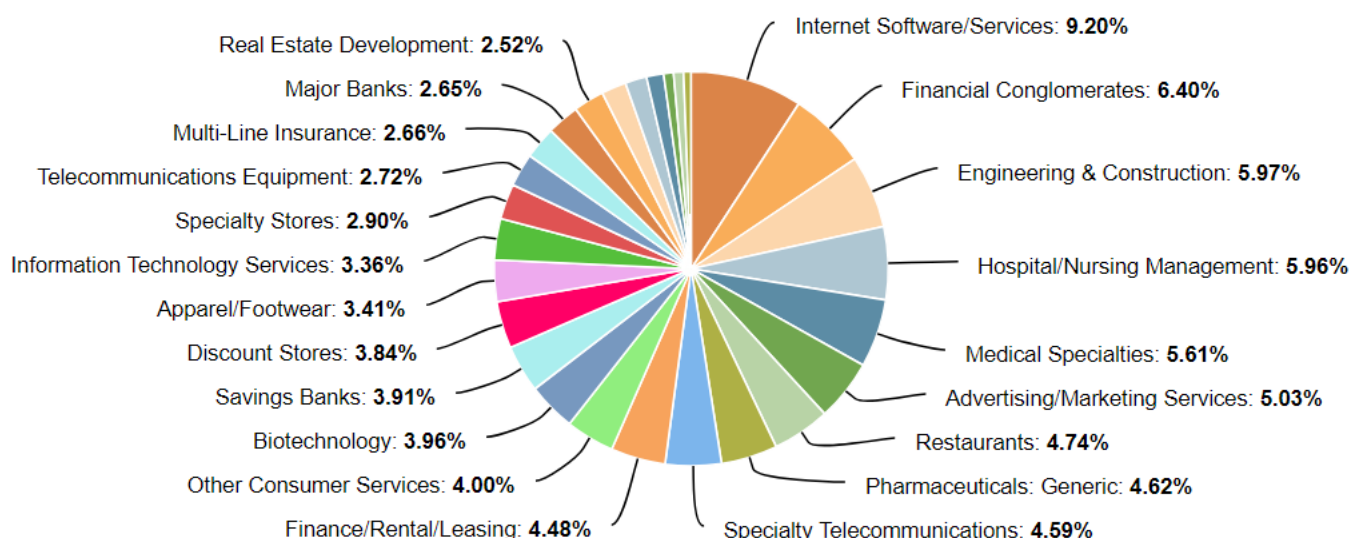

**Earnings Growth Drives Share Prices and Dividends:** Over time it is the upward trend of earnings per share that drives the share price. Assuming a stable payout ratio, it also drives growth in dividends. But EPS does not have to grow every year. Isolated short dips followed by growth afterwards can provide excellent buying opportunities.

A useful indicator of EPS growth is return on equity (ROE): high and consistent ROE generally indicates healthy EPS growth or a healthy dividend yield.

The following table gives the weighting, ROE and growth results for earnings per share for the largest ten holdings in the Conscious Investor® Fund. In the past two months, Flight Centre, Mineral Resources and Alphabet (Google) have entered the top ten holdings replacing Costco, Blackmores and Nike. Internal changes include Dominos dropping two places and Baidu increasing one place.

Symbol	Name	Weighting	ROE	Div Yield	EPS Growth 1-yr	EPS Growth 5-yr

GOOGL	Alphabet	3.8%	15.0%	0.0%	13.4%	13.0%

**Explanation:** Weighting includes the cash in the fund, ROE is return on equity over the previous financial year, Dividend Yield is the average dividend yield over the previous full year, Growth 1-year is the percentage growth of EPS over the previous full year (not necessarily a financial year) and Growth 5-years is the average annual growth of EPS over the past five years. (Our aim is to make these results as current as possible by including interim financial reports when needed. Hence, they may differ from the results for the most recent full financial year.) The industry distribution below includes the Teaminvest Private companies.
